

Nguyen Van Duong

INTERN FRONT-END DEVELOPER

Career Goals

About me: I am currently a student majoring in Information Technology. Currently, I am looking for an internship opportunity at a company with the hope of developing myself and learning new knowledge, especially in Front-end. I am currently aiming to develop my skills in React.js.

Short-term: I want to complete the skills to become a frontend developer within 3 months so that I can contribute to the company

Long-term: In the period of 3 to 5 years, I want to become a senior web developer.

Education

East Asia University of Technology
2021 - 2025

Major: Information Technology

GPA: 2.83

After studying the specialized subjects, I realized that I quite fit with FE. Besides studying the knowledge in class, I have also proactively sought additional sources of knowledge from websites, YouTube, and forums sharing about FE.
